All-In-One Gear Closet and Wet Bath

Power Lift Bed and Gear Garage

This brochure features the
Revel 44E floorplan

The true 4x4 RV opens up a world of possibilities

Designed specifically for active outdoor enthusiasts, the all-new Winnebago® Revel takes a no-nonsense approach to adventure, with a straightforward design and function-driven features. Taking full advantage of the proven 4x4 Mercedes-Benz® Sprinter chassis, the Revel's 3-liter turbo-diesel puts 325 lbs./ft. of torque through an on-demand 4WD system, complete with high/low range mode for added off-road capability. Inside, the Revel's unique features start with a floorplan designed around a 140-cu. ft. gear garage with a power lift bed. A full galley, including a 2.5-cu. ft. compressor refrigerator, makes meal prep a breeze, while the all-in-one wet bath and gear closet boasts a cassette-style toilet that eliminates the need for a separate black water holding tank. Add a standard 200-watt solar power system, diesel-powered heating, a dinette with a pull-up table that converts to additional sleeping space, and many more innovative features and the result is the new Revel: quite simply the most off-road capable RV Winnebago has ever built.

Revel | Lounge

Swivel cab seats and a pull-up table make the Revel's lounge area a comfortable place to rev up for, or unwind after, the day's adventures. Dual-pane acrylic awning windows with shades allow the windows to be opened for ventilation, even in rain, while snap-in screens on sliding and rear doors let the breeze in while keeping the bugs out. When the weather turns, the diesel-fired heating system keeps you cozy while also providing hot water as needed. And the available roof-mounted air conditioning system keeps things cool when the heat is on.

Pull-up Dinette Table

Revel | Galley

Cooking is easier and more comfortable aboard the Revel. The 2.5-cu. ft. compressor-driven refrigerator keeps things cool, while the single-burner induction cooktop allows flameless cooking inside the vehicle. The stainless sink features a fold-down faucet and cover, while the flip-up counter extension adds meal prep space.

After a long day of activities, simply lower the Power Lift Bed from its "up" position over the gear garage and relax on a comfortable gel foam mattress. The dinette also converts to a cross-coach sleeping platform for an overnight guest. The Revel's wet bath with a gear closet offers a low, step-in height and a conveniently integrated shower. The cassette-style toilet swivels for comfortable access, and the bathroom includes a removable clothes hanger alongside three removable shelves for added waterproof storage.

Dash

The Revel's cab is ready to go when you are, with comfortable, supportive seats with armrests, adjustable lumbar supports and headrests, and slide/swivel/recline functions. The large screen Infotainment Center with a full complement of driver aids put you in command of the 3.0L, 6-cylinder, diesel engine.

Cab Seats Reclined

Powered Patio Awning with LED Lighting

In camp, set up your awning with the push of a button. Built-in LED lighting illuminates your campsite, and the integrated wind sensor automatically retracts the awning when it gets gusty. The exterior shower with hot and cold settings lets you rinse away the day's dust. A movable ladder provides easy access to the luggage rack, while the trailer hitch provides impressive towing capacity when you want to bring more toys.

The Holcombes

Peter, Kathy, and Abby have been full-time RVing since 2014. Using photos and videos shot by Peter, a professional photographer, the family has documented their many adventures around the continent including hiking, paddling, climbing, canyoneering, fishing, and more. All from the comfort of their Winnebago.

You can follow their journey at *WinnebagoLife.com*. You'll also find hundreds of other great stories from GoLife's outstanding contributors, along with how-to articles, gear reviews, RVing tips, and much more.

FOOTNOTES

1. The height of each model is measured to the top of the tallest standard feature and is based on the curb weight of a typically equipped unit. The actual height of your vehicle may vary by several inches depending on chassis or equipment variations. Please contact your dealer for further information.
2. Capacities are based on measurements prior to tank installation. Slight capacity variations can result due to installation applications.
3. Capacities shown are tank manufacturer's listed water capacity (W.C.) Actual filled LP capacity is 80% of listing due to overfilling prevention device on tank.
4. Actual towing capacity is dependent upon your particular loading and towing circumstances, which includes the GVWR, GAWR and GCWR as well as adequate trailer brakes. Please refer to the Operator's Manual of your vehicle for further towing information.
5. See separate chassis warranty.
6. See your dealer for complete warranty information.

NA Not Available

Not all items available in combination. See dealer for details.

Winnebago's® continuing program of product improvement makes specifications, equipment, model availability, and prices subject to change without notice. Published content reflects the most current product information at time of printing. Please consult your dealer for individual vehicle features and specifications.
