EXTRAORDINARY LIVING. EXTREME PLAY.

The public has spoken, and Grand Design has answered with the introduction of the all new Momentum G-Class to its toy hauler lineup. The lighter G-Class series is built without surrendering any of the legendary quality, innovation, and functionality that our family of Momentum owners have come to love. Ceiling and slide out heights still stand tall along with our wide-body platform to create a feel of spaciousness.
**BUILT TO A HIGHER STANDARD**

**MAXIMUM FUNCTION**

1. **UP TO 40,000 BTU OF HEATING POWER**
   A high performance furnace (and a fireplace on fifth wheels) deliver the heat.

2. **EVENFLOW HEATING SYSTEM**
   Vertically mounted heat vents integrated into the cabinet bases, push hot air from front to back (rather than straight up). This also means that there are no heat vents in the middle of the floor to collect dirt and debris and that can be broken easily.

3. **HEATED UNDERBELLY & STORAGE BAY**
   To force heat into these compartments, dedicated heat ducts run to both the underbelly and storage bay. The enclosed utility center with low point drains (FW only) provides functional water systems even in extreme cold.

**MAXIMUM INSULATION**

1. **THERMAL ROOF DESIGN (R-40)***
   Fiberglass insulation and a layer of radiant foil insulation cover the roof. Grand Design goes further by extending both insulation layers the full length of the roof and around to the bottom of the front cap and pinbox area.

2. **FULLY LAMINATED WALLS (R-11)***
   Sidewalls, ramp door, slideroom endwalls, and slideroom roof are all welded aluminum framed and laminated with rigid foam insulation. Many others use wood framing and soft fiberglass insulation in the sliderooms that can settle over time and leave uninsulated air gaps.
   *The G-Class Travel Trailer Features Fully Laminated Walls Rated at R-7*

3. **TRIPLE INSULATED MAIN FLOOR (R-40)***
   The underbelly is lined with a radiant foil insulation barrier (Layer 1) and is then covered with fiberglass insulation that wraps all the way up the sides of the frame rails (Layer 2). The main floor enhances the R-Value with yet another layer of foil (Layer 3).
   *Slideroom Floors are R-24*

4. **TRIPLE INSULATED GARAGE FLOOR**
   While many toy hauler garage floors are NOT insulated, our exclusive garage floor design provides 3 layers of insulation. A base layer of radiant foil insulation (Layer 1) is topped with fiberglass insulation (Layer 2), and finishes with a second layer of radiant foil insulation on the underside of the garage floor (Layer 3). *(FW only)*

5. **INSULATED BAGGAGE DOORS**
   Rigid foam insulation lines the inside of our heavy-duty baggage doors.

6. **VENTED ATTIC**
   To maximize the effectiveness of the roof insulation, a vented attic allows condensation to escape the roof structure.

7. **INSULATED GOOSENECK**
   Radiant foil insulation under the gooseneck is a place often forgotten by others. *(FW only)*

*Equivalent R-Value*

Photos may show optional equipment which may not be included in the standard purchase price of the featured unit. Be sure to review current product details with your local dealer before purchasing. Rev 01.25.19
Reclining sofa seating from the Thomas Payne Collection features removable swivel tables, LED lighted cup holders with touch button controls for the heat and massaging functions and USB charger ports. There are even LED light strips underneath the sofa that provide a soothing glow. (395M Shown)
A PERFECT STORM OF LUXURY AND FUNCTIONALITY

Momentum and Momentum M-Class Toy Haulers are the point where absolute luxury meets mobile garage! The Toy Hauler bar has been raised with our innovative designs, quality construction, and luxurious appointments throughout. We know you will agree with us when we say that “Momentum is the place to live well and play hard!”

ONEControl™ is a touchscreen panel that allows you to operate and monitor many of the Momentum’s functions. Go wireless by downloading the FREE OneControl App on your mobile devices.

- Auto Generator Start
- If shore power goes out your generator can start automatically
- Cellular Connectivity
- Allows you to control your rig even when you are miles away

PREMIUM SOUND PACKAGE

Shake it up with the available Rockford Fosgate speaker package. This premium package includes upgraded interior and exterior speakers, 12” subwoofer, 400 watt amplifier and an additional exterior 10” subwoofer with 300 watt amp.

Rest well in the spacious master suite with your choice of a king or queen size bed and plenty of storage space.

Indulge yourself with the chef inspired range and oven, kitchen barstools and extended countertops. (Most models)

Happi-Jac electric bunk system with folding sofas provides maximum headroom in the garage area. (398M shown)
BUILT TO A HIGHER STANDARD

DESIGNED FROM THE GROUND UP TO BE THE BEST TOY HAULER ON THE MARKET!

Every Momentum features “FAST Ramp” rear ramp doors with two-sided lift-assist technology. The ramp door remains at the level it is opened to and moves up and down at the slightest pressure, making it easy for one person to operate.

Momentum’s design has been put to the test in extreme temperatures ranging from ZERO to 110+ degrees. Third party testing showed that the Momentum remained fully functional and retained comfortable temperatures.

Easily Lift & Lower with One Finger

StepAbove® with Strut Assist
- Adjustable feet for stability on uneven terrain
- Provides sure footing
- 500 lb weight capacity
- Eliminates bouncing in and out of your RV

SUPERCHASSIS

101” Wide Body Chassis – Maximum garage space, deeper sliderooms, more livable floor space and space saving pocket doors into the bathrooms.

Wide Rail Design – By locating the heavy duty 12” I-beam main rails further outward, more of the floor assembly/unit structure sits on the heart of the chassis instead of the outriggers. Wider rails also create a more stable jack stance, and allows for the slideroom gear mechanisms to be enclosed inside the frame rails (rather than outside). This solid design means that the garage area of every Momentum is rated for full GVWR capacity.

M-CLASS
- 12” Straight Rail
- Not 8” like many competitors

MOMENTUM
- 12” Main Rail
- 10” Drop Rail

BACKED TO A HIGHER STANDARD

Every Grand Design RV is backed with a class leading 3-year limited structural warranty. By selecting suppliers with similar philosophies, many components used on our coaches also carry an extended warranty through the component manufacturer.

ROOF COVERING (3 Years)
**MAXIMUM INSULATION**

1. **THERMAL ROOF DESIGN (R-40)**
   - Fiberglass insulation and a layer of radiant foil insulation cover the roof. Grand Design goes further by extending both insulation layers the full length of the roof and around to the bottom of the front cap and pinbox area.

2. **FULLY LAMINATED WALLS (R-11)**
   - Sidewalls, ramp door, slideroom ends, and slideroom roof are all welded aluminum framed and laminated with rigid foam insulation. Many others use wood framing and soft fiberglass insulation in the sliderooms that can settle over time and leave uninsulated air gaps.

3. **TRIPLE INSULATED MAIN FLOOR (R-45)**
   - The underbelly is lined with a radiant foil insulation barrier (Layer 1) and is then covered with fiberglass insulation that wraps all the way up the sides of the frame rails (Layer 2). The main floor enhances the R-Value with yet another layer of fiberglass insulation (Layer 3).

4. **TRIPLE INSULATED GARAGE FLOOR (R-40)**
   - While many toy hauler garage floors are NOT insulated, our exclusive garage floor design provides 3 layers of insulation. A base layer of radiant foil insulation (Layer 1) is topped with fiberglass insulation (Layer 2), and finishes with a second layer of radiant foil insulation on the underside of the garage floor (Layer 3).

5. **1.5" INSULATED BAGGAGE DOORS**
   - Rigid foam insulation lines the inside of our heavy duty baggage doors.

6. **VENTED ATTIC**
   - To maximize the effectiveness of the roof insulation, a vented attic allows condensation to escape the roof structure.

7. **INSULATED GOOSENECK**
   - Radiant foil insulation under the gooseneck is a place often forgotten by others.

8. **RAIL-TITE UNDERBELLY SEAL**
   - Rigid aluminum rails are fastened around the perimeter of the underbelly to keep the corrugated barrier up tight against the frame for a better seal from the elements.

**EXCLUSIVE COMBINATION!**

**MATERIALS INTEGRITY**

9. **40,000 BTU OF HEATING POWER**
   - A high performance furnace and fireplace combine to deliver the heat.

10. **EVENFLOW HEATING SYSTEM**
    - Vertically mounted heat vents integrated into the cabinet bases, push hot air front to back (rather than straight up). This also means that there are no heat vents in the middle of the floor to collect dirt and debris and that can be broken easily.

11. **HEATED UNDERBELLY & STORAGE BAY**
    - To force heat into these compartments, dedicated heat ducts run to both the underbelly and storage bay. 12-volt heat pads on each holding tank and the enclosed utility center with low point drains provides functional water systems even in extreme cold.

---

**STEALTH 3+**

**SMART A/C SYSTEM**

**AMERICA'S MOST POWERFUL A/C SYSTEM**

**AIRGUIDE TECHNOLOGY**

- Cool air is guided through the ducts and forced out of the vents for maximum cooling efficiency.

**AIRTITE CONNECTORS**

- All duct pieces are securely fastened together using special connector brackets.

**RACETRACK DUCTING**

- True Racetrack Ducting extends past each AC unit to allow for uninterrupted airflow from the front to the back of the coach.

**RUN ALL 3 ACS AT THE SAME TIME!**

**ULTRA QUIET**

- Up to 2x quieter than the competition.

**45,000 BTU OF AVAILABLE COOLING POWER**

- Dual 15,000 BTU A/Cs and an optional 15,000 BTU 3rd A/C

---

*Because of our commitment to continuous product improvement, Grand Design Recreational Vehicles reserves the right to change components, standards, options, specifications, and materials without notice and at any time. Photos may show optional equipment which may not be included in the standard purchase price of the featured unit. Be sure to review current product details with your local dealer before purchasing. Rev 01/25/19*
Thank you for taking the time to tour our coach. We would like to share what sets Grand Design RV Company apart from all other RV manufacturers and why this difference is important.

Grand Design’s founders were part of the ownership and leadership team of the largest travel trailer and fifth wheel manufacturer in the world. While proud of this accomplishment, it became difficult to stay in touch with customers, employees, and ultimately the quality of the final product. It was obvious there was a better way.

In 2011, we started with a blank canvas to pursue that better way, a different way, than what had been done before. A company whose culture requires a long-term, personal connection with our customers, employees, and dealers – that company is Grand Design RV. Our business model of doing the right thing has led us to unparalleled years of growth.

LONG TERM VALUE
Everything we do at our company is designed to build long term value in what we offer our customers, “more features and superior value for your dollar.”

CUSTOMER FOCUS
Our focus, from the very first day we opened our doors, revolves around our customers. Your satisfaction is our future.

STAYING CONNECTED
Magic happens when the CEO and Senior Management actively work with the production facilities to help build the team and develop products.

EXPERIENCED WORKFORCE
Our local workforce has been hand-picked and has an excellent reputation for second-to-none industry craftsmanship.

CLASS LEADING WARRANTY
We back every one of our coaches with a 3-year limited structural warranty.

RAISING THE QUALITY BAR
We put every Grand Design RV through a series of quality inspection gates during the manufacturing process. Once completed, the unit undergoes a comprehensive “final finish” inspection. At this point, most manufacturers ship their coaches to the dealer for retail sale. We aren’t most manufacturers. Every one of our coaches are shipped to a PDI (Pre-Delivery Inspection) area where they are put through a rigorous 288+ point inspection checklist. It is only after PDI certification that we deem a unit ready to ship to our dealers.

SUPERIOR SERVICE
Anything built by humans that travels down the open road is subject to issues. It’s how those issues are addressed that makes Grand Design stand out. Don’t just take our word for it, visit the independent Momentum owners page (Grand Design Momentum Owners) or (Grand Design RV Owners) on Facebook and see for yourself. We take care of our customers after the sale. An informed customer will be a Grand Design customer.

At Grand Design our goal is simple – continue leading the industry with quality products while improving the customer’s RV experience before, during and after the sale. We strive for nothing less than customers for life and we would be honored to personally welcome you to the Grand Design RV family!

Warmest Regards,

Don Clark
President / CEO / Co-Founder

Grand Design RV was created in 2012 and founded by close friends Don Clark and brothers Ron and Bill Fenech (Representing over 80 combined years of experience in the RV Industry).
